DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION SCHEDULES OPEN HOUSE MEETINGS FOR THE I-95/SCUDDER FALLS BRIDGE IMPROVEMENT PROJECT

MORRISVILLE, PA – The Delaware River Joint Toll Bridge Commission is sponsoring two public open house meetings to update citizens on the progress of the I-95/Scudder Falls Bridge Improvement Project. The goal of the improvement project is to relieve congestion and improve safety on the Scudder Falls Bridge and adjacent sections of I-95 in Pennsylvania and New Jersey.

An open house meeting will be held in New Jersey on Tuesday, May 10 from 6:00 p.m. until 9:00 p.m. at the Villa Victoria Academy Gymnasium at 376 West Upper Ferry Road in Ewing Township. In Pennsylvania, a meeting will be held on Wednesday, May 11 from 6:00 p.m. until 9:00 p.m. at Pennwood Middle School located at 1523 Makefield Road in Yardley. A presentation about the design options being considered for the Scudder Falls Bridge, I-95 and the interchanges in the project area will be provided at 7:00 p.m.

Both open house meetings will display the various design options and the potential impacts of the options to local areas for public review and comment. The meetings will also include maps and demonstrations with information about current and future traffic conditions and environmental features in the project area.

“We strongly encourage people to attend these meetings and learn more about the design options that we are advancing,” said Frank G. McCartney, Executive Director of the Delaware River Joint Toll Bridge Commission. “Now that the Commission has developed specific options for the bridge, I-95 and the local interchanges, we are interested in hearing from residents about which designs they prefer.”

For more information, please visit the Commission’s Web site for the Scudder Falls Bridge Improvement Project at www.scudderfallsbridge.com, or call the project hotline at 1-800-879-0849 during weekdays from 9:00 a.m. until 5:00 p.m.

About the Commission

The Delaware River Joint Toll Bridge Commission, formed by the Commonwealth of Pennsylvania and state of New Jersey in 1934, operates seven toll and 11 vehicular and two pedestrian toll-supported (free) bridges along the Delaware River from Trenton-Morrisville to the New York border. These bridges carry more than 135 million cars and trucks each year. For more information about the Commission and its various initiatives to deliver safer and more convenient bridge travel for its customers, please see: www.drjtb.org.
